# ABOUT OUR PROGRAM

**The Professional Division at Alberta Ballet School is a harmonious balance of academic and artistic training available to young dancers who aspire to have professional dance careers.**

Each school day is divided into equal halves with students receiving both academic and artistic instruction daily. In addition to daily coursework, students plan and participate in local and school events to foster school spirit, hone leadership skills and build lifelong friendships.

Acceptance into the Professional Division consists of a successful artistic audition in addition to a personal academic review. Students of our school study artistic and academic curriculum from September to late June. Our Professional Division program is offered to students on a year-by-year basis with notice of re-acceptance provided to students and families for the following school year in February.

# ARTISTIC PROGRAM

**Alberta Ballet School provides rigorous dance training to create a versatile dancer, one who is capable of creating every type of movement and style sought by today's dance companies.**

## **BALLET**

Our ballet curriculum is specifically developed for Alberta Ballet School incorporating prominent influences from Cecchetti, Vaganova and French systems of training. Daily coursework includes pointe, boy's technique, pas de deux, repertoire and variations, character dance and body conditioning.

## **ASSIGNMENT OF BALLET CLASS LEVELS AND POINTE WORK**

The Artistic Principal, in collaboration with faculty, makes all decisions in regards to the level placement of students, recommendations regarding exams, and the appropriate timing of pointe work training. Students may be moved to different classes when, in the school's judgment, the student's training would be improved by such a change. Each student's development as a dancer is individually assessed and tailored to accommodate varied stages of physical development, coordination, ability to assimilate instruction and degree of motivation. During full-time study, student levels are set by stage and ability to ensure a secure, proper basic technical foundation.

## **PROGRESS REPORTS**

Students in the Professional Division may be asked to participate in in-house assessment classes throughout the year. These classes are designed to help monitor the students' progress and give the students and their teachers valuable feedback. In some cases, the students may receive a mark in the class which will appear on one or more of their progress reports. Progress reports are distributed four times a year and help our teachers communicate progress to both students and parents. Parent- teacher interviews are also scheduled throughout the year in order for this progress to be further discussed.

## **CONTEMPORARY AND MODERN DANCE**

Contemporary and Modern dance classes are required programming at Alberta Ballet School. These classes ensure students are well prepared in many movement forms and have knowledge of differing idioms. Programming is customised to student's individual goals in either classical or contemporary dance. There is a strong emphasis on the learning and performing of repertoire as it serves an arena in which everything learned in technique class can be brought to the fore and realized. The program consequently includes partnering, and choreographic composition as well as discussion on the role the contemporary arts play in modern society.

## **SCHOOL PRODUCTIONS AND PERFORMANCE OPPORTUNITIES**

Each year, students have opportunities to perform in school-created showcases or events, including a formal Year End Performance. Alberta Ballet School's year-end production allows Professional Division students to perform at a nationally recognized venue complete with lights, costumes, stage design and the choreography of a professional level production. While younger students gain valuable experience, the audience witnesses the brilliance of our graduating students before they begin their careers at dance companies around the world.

## **ALBERTA BALLET SCHOOL AND ALBERTA BALLET**

Alberta Ballet School and Alberta Ballet are part of one organization that collaborates on many levels creating a unique organization and the only one of its kind in Canada.

Alberta Ballet company seeks dancers from the School for many of its annual productions, offering the ability to experience the life of a professional dancer, affording students the opportunity to gain valuable experience with a professional dance company and to work with numerous acclaimed choreographers.

This close partnership between the school and the company gives students an opportunity to jump-start their performing careers. Many graduates from the Alberta Ballet School have joined Alberta Ballet as company artists.

"What I am looking for when auditioning dancers, and I have auditioned dancers from all around the world, is exactly what the school is training its students to be – accomplished in all styles of classical ballet and able to adapt. There is no ballet company in the world today that only performs classical ballet and so today's dancers need to be more versatile. The students at Alberta Ballet School receive that training, and I am proud to have them on my stage."

Alberta Ballet*

"While attending Alberta Ballet School, Jamie received the dance training that she needed to pursue her career aspirations and the academic guidance that left her solidly prepared to enter University if, and when, she chose to. After her first year of professional dance upon graduation, Jamie decided that while she loved dance, she no longer sought a career as a ballerina and decided to head to University. As Jamie starts her second year of University studying a double major in Math and Chemistry, her father and I are thrilled that through your school she was able to pursue her passion for ballet while receiving the strong educational background required for life after the stage. We truly believe that the ballet and education she received at Alberta Ballet School has made her into the strong, independent and determined young woman she is today."
